About SUADHA

SUADHA is a Kalyan-based non-profit charitable trust founded by professional social workers from TISS and NNI institutes of Social Science, Mumbai. For the past 16 years, it has focused on the holistic socio-economic development of underprivileged and tribal communities.

Suadha Rehab Centre

A Women Empowerment Initiative

SUADHA empowers economically disadvantaged women from Kalyan city, nearby villages, and urban slums by providing vocational training based on a baseline survey of job-market skills. The center supports destitute women and tribal communities through skill development in areas such as gift-making, stationery, baking, stitching, painting, and handicrafts. Trained women can earn an income by selling their handmade products, fostering economic independence and self-reliance.

Goals

SUADHA aims to create positive change in the lives of the economically underprivileged by delivering cost-effective, high-impact programs through partnerships with NGOs, like-minded organizations, and corporate initiatives. It offers holistic support to entire families, not just women, and focuses on research-driven, innovative solutions to address the challenges faced by the urban poor, ensuring beneficiary satisfaction.

Vision

SUADHA is an open door on a pathway of Change that will have multiple impacts on the economically underprivileged, which help them to lead a better life.

Mission

Our vision and mission define who we are and what we aim to achieve. Guided by our values, we strive to make a difference not just in our humanitarian work but in everything we do. Our values shape our decisions, interactions, and culture, driving us closer to our vision of a better world.
